TECHNICAL SKILLS

Programming Languages: SQL, R (dplyr, tidyr, stringr, lubridate, DBI), Python, Shell scripting
Data Platforms & Tools: Google BigQuery, Dataform, MySQL, Jenkins, Google Cloud Storage, Metabase
Development Tools: Git, Docker, RStudio, DBeaver, Neovim
Documentation & Collaboration: Roxygen, Markdown, LaTeX, Slack, Microsoft Office
Languages: Cantonese (Native), Mandarin (Native), English (Full professional proficiency)

WORK EXPERIENCE

Junior Data Manager

May 2024 – Present

Zapmap

Bristol, UK

- Transform and standardise charging network data from 20+ CPO partners to Zapmap's schema using existing OCPI integration pipelines, ensuring consistent data quality across heterogeneous sources.
- Write and maintain SQL scripts in Google BigQuery to process 44,300+ charging locations for the UK Department for Transport's official EV infrastructure statistics, delivering monthly data exports via Cloud Storage buckets.
- Contribute to migration of legacy ETL processes to cloud-based ELT architecture using Dataform on Google BigQuery, adapting transformation logic and documenting source-to-target mappings.
- Engineer internal R package to automate recurring data transformations and validation workflows, reducing manual processing time and enabling team scalability.

Data Assistant

March 2023 – May 2024

Zapmap

Bristol, UK

- Validated and processed incoming data feeds from charging network partners, performing quality checks on charge point metadata and resolving data inconsistencies in MySQL databases.
- Collaborated with Data Managers on database schema changes and ad-hoc data transformations, gaining hands-on experience with production data systems.

Data Science Team Leader

February 2023 – April 2023

180 Degree Consulting

Bristol, UK

- Led team of four in developing Python-based data processing pipeline for non-profit client, automating volunteer scheduling analytics and call management dashboard.
- Facilitated requirement gathering sessions with stakeholders to translate business needs into technical specifications for real-time reporting solutions.

EDUCATION

University of Bristol

Bristol, UK

Master of Science by Research, Population Health Sciences

2020-2023

- Thesis: Purchasing and consumption of over-the-counter antibiotics: a mixed-method approach to secondary data
- Supported by the University of Bristol UK-China AMR Program Scholarships.

Shandong University

Jinan, China

Bachelor of Laws, Anthropology

2016-2020

- GPA: 86.35/100

PUBLICATION

Cong W, Stuart B, Alhusein N, Liu B, **Tang Y**, Wang H, et al. Antibiotic Use and Bacterial Infection in COVID-19 Patients in the Second Phase of the SARS-CoV-2 Pandemic: A Scoping Review. *Antibiotics*. 2022;11(8):991.
